

PLAN VIEW OF INNER SILL

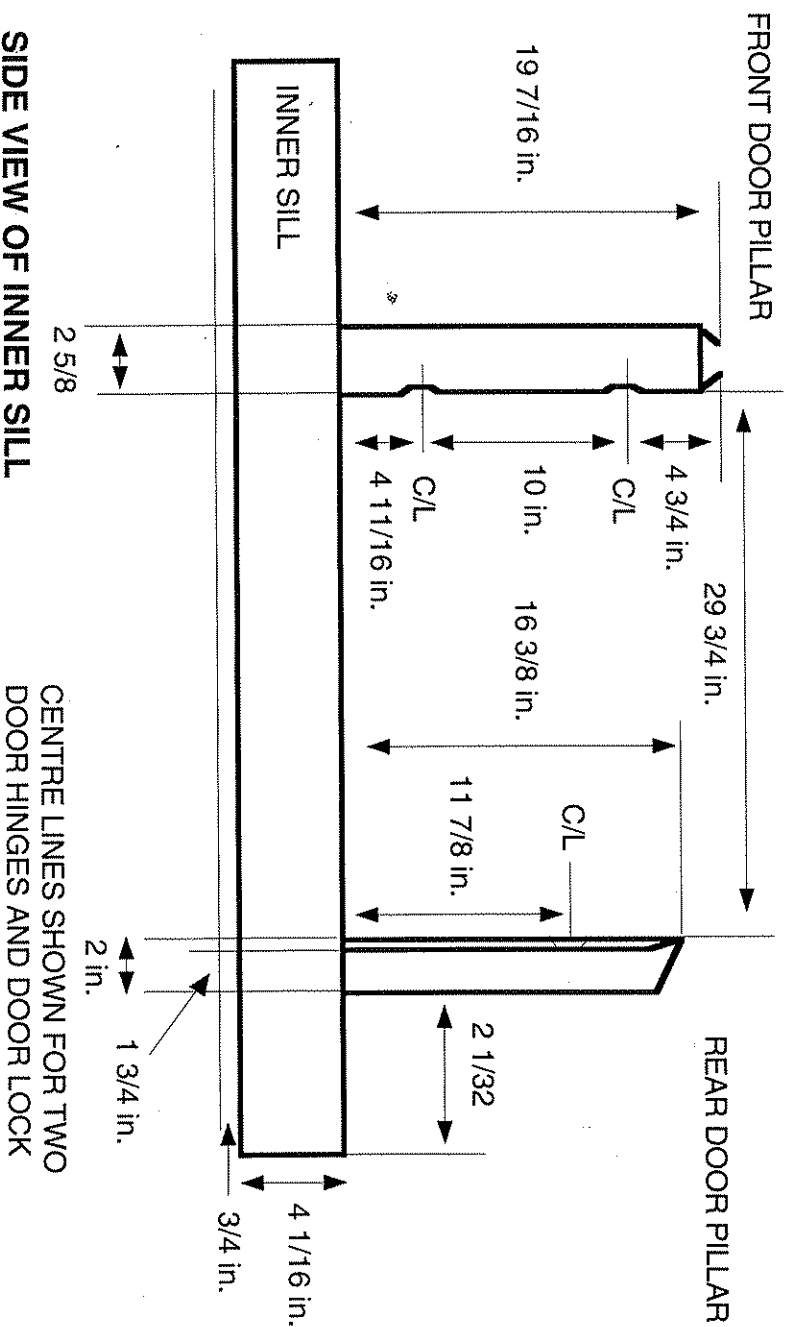

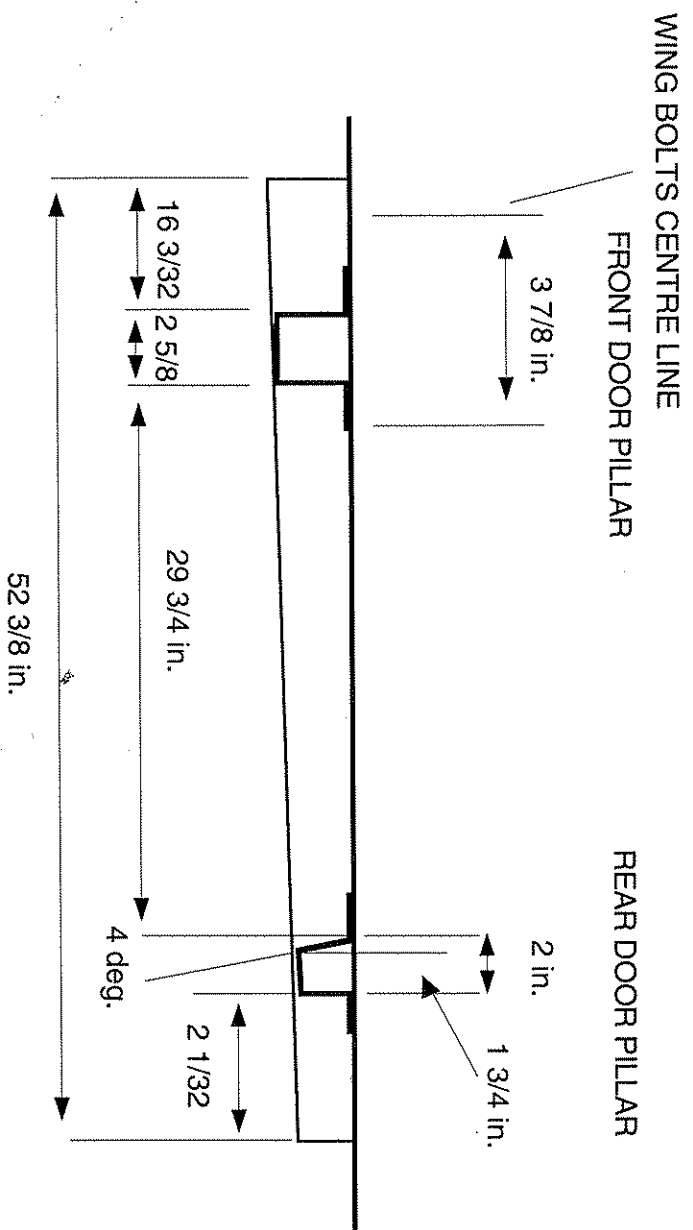

SIDE VIEW OF INNER SILL

CENTRE LINES SHOWN FOR TWO DOOR HINGES AND DOOR LOCK

This dimensional drawing was prepared by John Underwood to illustrate his excellent lectures on the MGA body at M.G. Car Club MGA Rebuild Seminars. He stresses that the dimensions are APPROXIMATE and should not be taken as gospel and are for use only when there not enough of the original body left to take measurements from. In all cases offer up the door and wings to check fits before finally welding all the parts in place.
